- Edge Types

TIP

Keep this page bookmarked. ResolveX uses workflow-specific terms that appear across all screens.

Core Concepts

Term	Definition	Example
Exception	A record that requires manual investigation or action	Unmatched payment, amount discrepancy
Break	Another term for exception - a reconciliation mismatch	Bank record without matching ledger entry
Work Item	A single exception being processed through a workflow	Case #12345
Workflow	A defined process for handling exceptions from start to finish	"Payment Disputes Workflow"
Queue	A stage within a workflow where items wait for action	"Under Review", "Pending Approval"
Action	An operation that moves an item from one queue to another	"Approve", "Reject", "Escalate"

Status Terms

Status	Meaning	Next Step	Color
Open	Item is active and in a queue	Perform an action	 Blue
In Progress	Item is being worked on	Complete the action	 Yellow
Resolved	Item has been fully processed	No further action needed	 Green
Escalated	Item moved to higher authority	Await decision	 Red

Action Terms (with Icons)

Action	Icon	What It Does
Assign		Assign an item to an owner or team for accountability
Approve / Reject		Record a decision and move item to the next queue or resolved state
Request More Info		Send follow-up communication and move item to an on-hold/pending-response queue
Escalate		Route the item to higher authority when additional approval is required
Add Note		Capture context and rationale (part of audit trail)
Add Attachment		Upload evidence/supporting files (screenshots, PDFs, exports)

Action	Icon	What It Does
Back	←	Return to queue list view
