Notes About Dashboard Rendering

Quick Start (15 minutes)

Use this guided flow if you are new to AnalytiX and want to view your first Insight dashboard.

Goal: Open and navigate Insights successfully.

Expected outcome:

- You can find and open an Insight dashboard
- You can switch between dashboards using the Insight selector
- You know where to check if a dashboard fails to load

Step 1: Access AnalytiX

1. Log in to SAYA Platform
2. Navigate to **AnalytiX** from the left menu

Expected outcome: You see the Insights list showing available dashboards for your organisation and role

Step 2: Open an Insight

1. Review the list of available insights
2. Click on an insight to view its dashboard

Expected outcome: **The dashboard opens in embedded view within SAYA**

NOTE

Dashboards are embedded and may take a few moments to load while secure access is established.

Step 3: Navigate Between Insights

If multiple insights are available:

1. Use the insight dropdown selector to switch between dashboards
2. Use the back action to return to the insight list

Expected outcome: **You can efficiently switch between multiple dashboards without leaving AnalytiX**

Main Workspace

Where to Access

AnalytiX is accessible from:

- **SAYA Platform > AnalytiX** (left navigation menu)
- **Dashboard Module Tile** (if configured on main Dashboard screen)

Insights List View

When you open AnalytiX, the workspace displays:

Insight Catalog:

- List of available insights (dashboards) based on your organisation and role
- Each insight shows:
 - **Insight Name** - Dashboard title
 - **Insight ID** - Unique identifier

Opening an Insight:

1. Select an insight from the list
2. Click to view the embedded dashboard

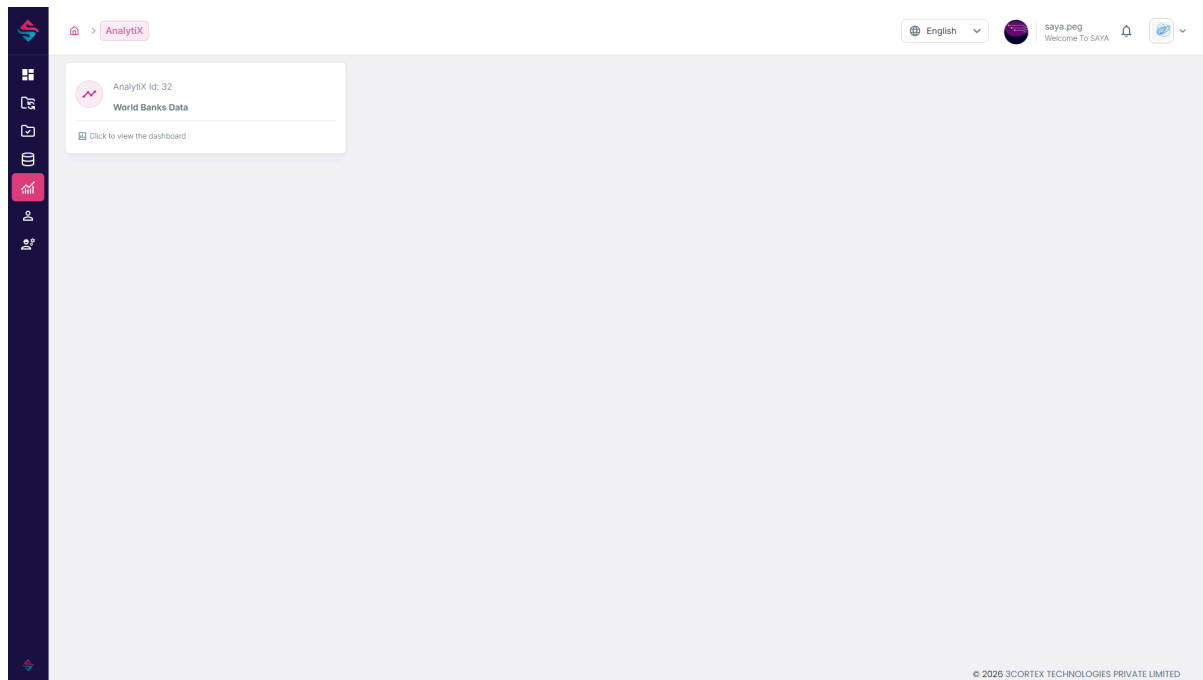

Figure 1. AnalytiX Insights List

Dashboard View

Once you open an insight, the dashboard renders inside SAYA:

Dashboard Features:

- **Embedded rendering** - Dashboard loads with secure guest token
- **Interactive filters** - Apply filters to customize the dashboard view (filter options depend on dashboard design)
- **Download options** - Some dashboards support exporting data or reports (availability depends on dashboard configuration)

Switching Dashboards:

- Use the **Insight Dropdown** to select a different dashboard
- Use the **Back action** to return to the Insights list

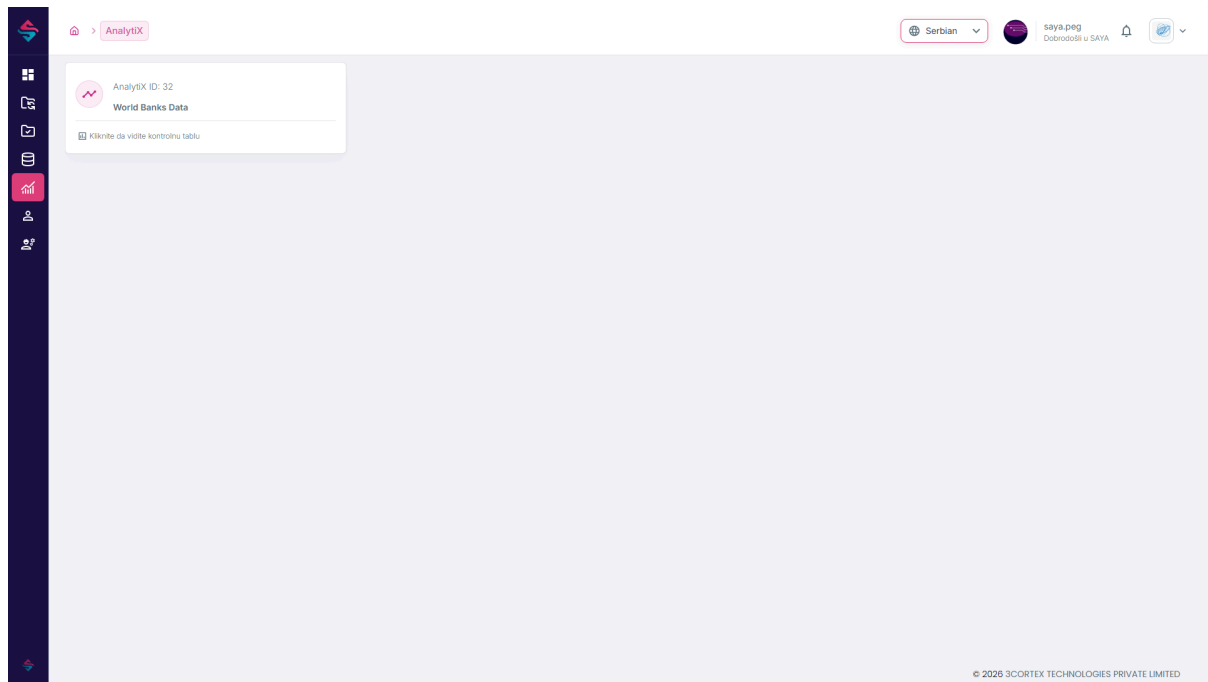

Figure 2. Embedded Dashboard View

Notes About Dashboard Rendering

- Dashboards are embedded inside SAYA using secure token-based access
- Loading time depends on dashboard complexity and data volume
- If an insight is visible but does not load, see [Troubleshooting](#).
- Dashboard content and filters are controlled by the external analytics platform (SAYA Dashboard Designer)
